Controlled Activity Scheduling

Effective Date:	2099-03-01	**Policy Number:**	99 TST 2003
Applicability/Class:	Synthetic Policy	**Dept.:**	Scheduling Office
Date of Review:	2099-08-15	**Approval:**	Synthetic Approval Authority 3

I. Purpose and Scope

Scheduled Activity Policy governs scheduled controlled activity for Scheduling Office and authorized supporting roles.

The required control is to coordinate the approved window and operational owner. This document does not authorize activity outside its stated scope.

Control identifier CTL-003 distinguishes this requirement from similar controls in related documents.

II. Definitions and Responsibilities

Accountable Owner means the role responsible for the activity schedule record and the final disposition of its open actions.

Complete Evidence means evidence sufficient to demonstrate approved start, end, owner, and readiness evidence.

The originating operator supplies facts; the Scheduling Office reviewer verifies scope, authority, and conflicts.

Related terms may also appear in 99 TST 2001 and 99 TST 2011, but each document retains its own decision boundary.

III. Required Controls

1. Create the activity schedule record. 2. Identify the accountable owner. 3. Record the governing purpose and affected scope.

4. Verify approved start, end, owner, and readiness evidence. 5. Record exceptions and their expiration. 6. Preserve evidence of the decision.

A control is incomplete when its owner, time boundary, authoritative reference, or required evidence is missing.

The reviewer must distinguish this control from the related but non-equivalent requirements in TST-9011.

IV. Procedure and Exceptions

1. Intake the request or event. 2. Validate identity and applicability. 3. Apply CTL-003. 4. Record the outcome.

If facts are ambiguous, request the missing operational fact instead of guessing a department, incident type, or authority.

An exception is time bounded, identifies compensating controls, and links to both 99 TST 2001 and 99 TST 2011 when applicable.

Urgency does not remove evidence, logging, notification, or later review requirements.

V. Records, References, and Review

The authoritative output is the activity schedule record; preserve its identifier, owner, timestamps, evidence, approval, and disposition.

References: 99 TST 2001; 99 TST 2011; TST-9011.

Review this document on 2099-08-15 or after a material control failure, whichever occurs first.

Corrections append a new traceable version and never silently overwrite prior provenance.
