Acceptable Use

Effective Date:	2099-08-01	**Policy Number:**	99 TST 2040
Applicability/Class:	Synthetic Policy	**Dept:**	Executive Office
Date of Review:	2099-01-15	**Approval:**	Synthetic Approval Authority 10

I. Purpose and Scope

Acceptable Use Policy governs acceptable use of organizational technology and information for Executive Office and authorized supporting roles.

The required control is to permit authorized business use and prohibit unsafe or unapproved activity. This document does not authorize activity outside its stated scope.

Control identifier CTL-020 distinguishes this requirement from similar controls in related documents.

II. Definitions and Responsibilities

Accountable Owner means the role responsible for the acceptable-use acknowledgment and the final disposition of its open actions.

Complete Evidence means evidence sufficient to demonstrate authorized purpose, approved technology, and protected information.

The originating operator supplies facts; the Executive Office reviewer verifies scope, authority, and conflicts.

Related terms may also appear in 99 TST 2041 and 99 TST 2042, but each document retains its own decision boundary.

III. Required Controls

1. Create the acceptable-use acknowledgment. 2. Identify the accountable owner. 3. Record the governing purpose and affected scope.

4. Verify authorized purpose, approved technology, and protected information. 5. Record exceptions and their expiration. 6. Preserve evidence of the decision.

A control is incomplete when its owner, time boundary, authoritative reference, or required evidence is missing.

The reviewer must distinguish this control from the related but non-equivalent requirements in 99 TST 2043.

IV. Procedure and Exceptions

1. Intake the request or event. 2. Validate identity and applicability. 3. Apply CTL-020. 4. Record the outcome.

If facts are ambiguous, request the missing operational fact instead of guessing a department, incident type, or authority.

An exception is time bounded, identifies compensating controls, and links to both 99 TST 2041 and 99 TST 2042 when applicable.

Urgency does not remove evidence, logging, notification, or later review requirements.

V. Records, References, and Review

The authoritative output is the acceptable-use acknowledgment; preserve its identifier, owner, timestamps, evidence, approval, and disposition.

Review this document on 2099-01-15 or after a material control failure, whichever occurs first.

Corrections append a new traceable version and never silently overwrite prior provenance.
