# After-Hours Operations

| | | | |
|---|---|---|---|
| **Effective Date:** | 2099-10-01 | **Policy Number:** | 99 TST 2012 |
| **Applicability/Class:** | Synthetic Policy | **Department:** | Operations Control |
| **Date of Review:** | 2099-03-15 | **Approval:** | Synthetic Approval Authority 10 |

## I. Purpose and Scope

After-Hours Operations Policy governs controlled activity outside standard support hours for Operations Control and authorized supporting roles.

The required control is to require an on-call owner and rollback path. This document does not authorize activity outside its stated scope.

Control identifier CTL-010 distinguishes this requirement from similar controls in related documents.

## II. Definitions and Responsibilities

Accountable Owner means the role responsible for the after-hours authorization and the final disposition of its open actions.

Complete Evidence means evidence sufficient to demonstrate confirmed coverage, communications, and recovery.

The originating operator supplies facts; the Operations Control reviewer verifies scope, authority, and conflicts.

Related terms may also appear in 99 TST 2003 and 99 TST 2011, but each document retains its own decision boundary.

## III. Required Controls

1. Create the after-hours authorization. 2. Identify the accountable owner. 3. Record the governing purpose and affected scope.

4. Verify confirmed coverage, communications, and recovery. 5. Record exceptions and their expiration. 6. Preserve evidence of the decision.

A control is incomplete when its owner, time boundary, authoritative reference, or required evidence is missing.

The reviewer must distinguish this control from the related but non-equivalent requirements in 99 TST 2031.

## IV. Procedure and Exceptions

1. Intake the request or event. 2. Validate identity and applicability. 3. Apply CTL-010. 4. Record the outcome.

If facts are ambiguous, request the missing operational fact instead of guessing a department, incident type, or authority.

An exception is time bounded, identifies compensating controls, and links to both 99 TST 2003 and 99 TST 2011 when applicable.

Urgency does not remove evidence, logging, notification, or later review requirements.

## V. Records, References, and Review

The authoritative output is the after-hours authorization; preserve its identifier, owner, timestamps, evidence, approval, and disposition.
