Audit Evidence

Effective Date:	2099-03-01	**Policy Number:**	99 TST 2022
Applicability/Class:	Synthetic Guide	**Dept.:**	Legal and Compliance
Date of Review:	2099-08-15	**Approval:**	Synthetic Approval Authority 5

I. Purpose and Scope

Audit Evidence Guide governs evidence used to prove policy and procedure execution for Legal and Compliance and authorized supporting roles.

The required control is to preserve attributable, complete, and reproducible evidence. This document does not authorize activity outside its stated scope.

Control identifier CTL-015 distinguishes this requirement from similar controls in related documents.

II. Definitions and Responsibilities

Accountable Owner means the role responsible for the audit evidence package and the final disposition of its open actions.

Complete Evidence means evidence sufficient to demonstrate source identity, custody, time, and governing requirement.

The originating operator supplies facts; the Legal and Compliance reviewer verifies scope, authority, and conflicts.

Related terms may also appear in 99 TST 2005 and 99 TST 2020, but each document retains its own decision boundary.

III. Required Controls

1. Create the audit evidence package. 2. Identify the accountable owner. 3. Record the governing purpose and affected scope.

4. Verify source identity, custody, time, and governing requirement. 5. Record exceptions and their expiration. 6. Preserve evidence of the decision.

A control is incomplete when its owner, time boundary, authoritative reference, or required evidence is missing.

The reviewer must distinguish this control from the related but non-equivalent requirements in TST-9020.

IV. Procedure and Exceptions

1. Intake the request or event. 2. Validate identity and applicability. 3. Apply CTL-015. 4. Record the outcome.

If facts are ambiguous, request the missing operational fact instead of guessing a department, incident type, or authority.

An exception is time bounded, identifies compensating controls, and links to both 99 TST 2005 and 99 TST 2020 when applicable.

Urgency does not remove evidence, logging, notification, or later review requirements.

V. Records, References, and Review

The authoritative output is the audit evidence package; preserve its identifier, owner, timestamps, evidence, approval, and disposition.

References: 99 TST 2005; 99 TST 2020; TST-9020.

Review this document on 2099-08-15 or after a material control failure, whichever occurs first.

Corrections append a new traceable version and never silently overwrite prior provenance.
