Controlled Materials Handling

Effective Date:	2099-07-01	**Policy Number:**	99 TST 2010
Applicability/Class:	Synthetic Procedure	**Department:**	Operations Control
Date of Review:	2099-12-15	**Approval:**	Synthetic Approval Authority 7

I. Purpose and Scope

Controlled Materials Handling Procedure governs receipt, use, transfer, and return of controlled materials for Operations Control and authorized supporting roles.

The required control is to maintain custody and reconcile every transfer. This document does not authorize activity outside its stated scope.

Control identifier CTL-007 distinguishes this requirement from similar controls in related documents.

II. Definitions and Responsibilities

Accountable Owner means the role responsible for the custody log and the final disposition of its open actions.

Complete Evidence means evidence sufficient to demonstrate matched sender, recipient, time, and disposition.

The originating operator supplies facts; the Operations Control reviewer verifies scope, authority, and conflicts.

Related terms may also appear in 99 TST 2001 and 99 TST 2002, but each document retains its own decision boundary.

III. Required Controls

1. Create the custody log. 2. Identify the accountable owner. 3. Record the governing purpose and affected scope.

4. Verify matched sender, recipient, time, and disposition. 5. Record exceptions and their expiration. 6. Preserve evidence of the decision.

A control is incomplete when its owner, time boundary, authoritative reference, or required evidence is missing.

The reviewer must distinguish this control from the related but non-equivalent requirements in 99 TST 2006.

IV. Procedure and Exceptions

1. Intake the request or event. 2. Validate identity and applicability. 3. Apply CTL-007. 4. Record the outcome.

If facts are ambiguous, request the missing operational fact instead of guessing a department, incident type, or authority.

An exception is time bounded, identifies compensating controls, and links to both 99 TST 2001 and 99 TST 2002 when applicable.

Urgency does not remove evidence, logging, notification, or later review requirements.

V. Records, References, and Review

The authoritative output is the custody log; preserve its identifier, owner, timestamps, evidence, approval, and disposition.

References: 99 TST 2001; 99 TST 2002; 99 TST 2006.

Review this document on 2099-12-15 or after a material control failure, whichever occurs first.

Corrections append a new traceable version and never silently overwrite prior provenance.
