Decision Record

Effective Date:	2099-02-01	**Policy Number:**	TST-9020
Applicability/Class:	Synthetic Form	**Dept:**	Records Governance
Date of Review:	2099-07-15	**Approval:**	Synthetic Approval Authority 4

I. Instructions and Record Identity

Decision Record Form governs recording an operational or policy decision for Records Governance and authorized supporting roles.

The required control is to capture authority, rationale, evidence, controls, and review date. This document does not authorize activity outside its stated scope.

Control identifier CTL-014 distinguishes this requirement from similar controls in related documents.

II. Requester, Scope, and Dates

Accountable Owner means the role responsible for the decision record and the final disposition of its open actions.

Complete Evidence means evidence sufficient to demonstrate complete evidence links and accountable approval.

The originating operator supplies facts; the Records Governance reviewer verifies scope, authority, and conflicts.

Related terms may also appear in 99 TST 2005 and 99 TST 2020, but each document retains its own decision boundary.

III. Risk and Control Selection

1. Create the decision record. 2. Identify the accountable owner. 3. Record the governing purpose and affected scope.

4. Verify complete evidence links and accountable approval. 5. Record exceptions and their expiration. 6. Preserve evidence of the decision.

A control is incomplete when its owner, time boundary, authoritative reference, or required evidence is missing.

The reviewer must distinguish this control from the related but non-equivalent requirements in 99 TST 2022.

Field	Value	Required	Status
Record	decision record	Yes	Entered
Owner	Records Governance	Yes	Verified
Control	CTL-014	Yes	Reviewed

IV. Review Decision and Exceptions

1. Intake the request or event. 2. Validate identity and applicability. 3. Apply CTL-014. 4. Record the outcome.

If facts are ambiguous, request the missing operational fact instead of guessing a department, incident type, or authority.

An exception is time bounded, identifies compensating controls, and links to both 99 TST 2005 and 99 TST 2020 when applicable.

Urgency does not remove evidence, logging, notification, or later review requirements.

V. Certification, References, and Retention

The authoritative output is the decision record; preserve its identifier, owner, timestamps, evidence, approval, and disposition.

References: 99 TST 2005; 99 TST 2020; 99 TST 2022.

Review this document on 2099-07-15 or after a material control failure, whichever occurs first.

Corrections append a new traceable version and never silently overwrite prior provenance.
