Information Sharing

Effective Date:	2099-06-01	**Policy Number:**	99 TST 2054
Applicability/Class:	Synthetic Policy	**Dept.:**	Data Stewardship
Date of Review:	2099-11-15	**Approval:**	Synthetic Approval Authority 10

I. Purpose and Scope

Information Sharing Policy governs internal and external sharing of classified information for Data Stewardship and authorized supporting roles.

The required control is to confirm recipient, purpose, authority, and transfer protection. This document does not authorize activity outside its stated scope.

Control identifier CTL-030 distinguishes this requirement from similar controls in related documents.

II. Definitions and Responsibilities

Accountable Owner means the role responsible for the information sharing decision and the final disposition of its open actions.

Complete Evidence means evidence sufficient to demonstrate classification-compatible recipient and transmission control.

The originating operator supplies facts; the Data Stewardship reviewer verifies scope, authority, and conflicts.

Related terms may also appear in 99 TST 2052 and 99 TST 2050, but each document retains its own decision boundary.

III. Required Controls

1. Create the information sharing decision. 2. Identify the accountable owner. 3. Record the governing purpose and affected scope.

4. Verify classification-compatible recipient and transmission control. 5. Record exceptions and their expiration. 6. Preserve evidence of the decision.

A control is incomplete when its owner, time boundary, authoritative reference, or required evidence is missing.

The reviewer must distinguish this control from the related but non-equivalent requirements in 99 TST 2022.

IV. Procedure and Exceptions

1. Intake the request or event. 2. Validate identity and applicability. 3. Apply CTL-030. 4. Record the outcome.

If facts are ambiguous, request the missing operational fact instead of guessing a department, incident type, or authority.

An exception is time bounded, identifies compensating controls, and links to both 99 TST 2052 and 99 TST 2050 when applicable.

Urgency does not remove evidence, logging, notification, or later review requirements.

V. Records, References, and Review

The authoritative output is the information sharing decision; preserve its identifier, owner, timestamps, evidence, approval, and disposition.

References: 99 TST 2052; 99 TST 2050; 99 TST 2022.

Review this document on 2099-11-15 or after a material control failure, whichever occurs first.

Corrections append a new traceable version and never silently overwrite prior provenance.
