Records Retention

Effective Date:	2099-12-01	**Policy Number:**	99 TST 2020
Applicability/Class:	Synthetic Policy	**Dept.:**	Records Governance
Date of Review:	2099-05-15	**Approval:**	Synthetic Approval Authority 2

I. Purpose and Scope

Records Retention Policy governs retention and disposition of operational records for Records Governance and authorized supporting roles.

The required control is to assign retention by authoritative record class. This document does not authorize activity outside its stated scope.

Control identifier CTL-012 distinguishes this requirement from similar controls in related documents.

II. Definitions and Responsibilities

Accountable Owner means the role responsible for the retention schedule entry and the final disposition of its open actions.

Complete Evidence means evidence sufficient to demonstrate closed lifecycle plus satisfied hold requirements.

The originating operator supplies facts; the Records Governance reviewer verifies scope, authority, and conflicts.

Related terms may also appear in 99 TST 2005 and 99 TST 2021, but each document retains its own decision boundary.

III. Required Controls

1. Create the retention schedule entry. 2. Identify the accountable owner. 3. Record the governing purpose and affected scope.

4. Verify closed lifecycle plus satisfied hold requirements. 5. Record exceptions and their expiration. 6. Preserve evidence of the decision.

A control is incomplete when its owner, time boundary, authoritative reference, or required evidence is missing.

The reviewer must distinguish this control from the related but non-equivalent requirements in TST-9020.

IV. Procedure and Exceptions

1. Intake the request or event. 2. Validate identity and applicability. 3. Apply CTL-012. 4. Record the outcome.

If facts are ambiguous, request the missing operational fact instead of guessing a department, incident type, or authority.

An exception is time bounded, identifies compensating controls, and links to both 99 TST 2005 and 99 TST 2021 when applicable.

Urgency does not remove evidence, logging, notification, or later review requirements.

V. Records, References, and Review

The authoritative output is the retention schedule entry; preserve its identifier, owner, timestamps, evidence, approval, and disposition.

References: 99 TST 2005; 99 TST 2021; TST-9020.

Review this document on 2099-05-15 or after a material control failure, whichever occurs first.

Corrections append a new traceable version and never silently overwrite prior provenance.
